

## A Closer Look at Your Region

The State Transportation Commission kicked off their six-week open comment period on April 16, 2015 with an online public meeting and survey to invite public input into the Twelve Year Program update. Survey comments for each Planning Partner region were analyzed to understand regional priorities and transportation trends. This report shares the regional results.

### Balancing Transportation Priorities and Investment

Participants were asked to rank their top five priorities from a list of eight transportation issues and budget investment for each priority. In general, customers' priorities aligned with investment in each category.
