

A Closer Look at Your Region

The State Transportation Commission kicked off their six-week open comment period on April 16, 2015 with an online public meeting and survey to invite public input into the Twelve Year Program update. Survey comments for each Planning Partner region were analyzed to understand regional priorities and transportation trends. This report shares the regional results.

Balancing Transportation Priorities and Investment

Participants were asked to rank their top five priorities from a list of eight transportation issues and budget investment for each priority. In general, customers' priorities aligned with investment in each category.

Survey Results: Statewide Priorities vs. Regional Priorities

About the Chart

This chart examines how survey respondents ranked transportation priorities. The top priorities for the statewide and regional level are compared. Survey respondent's location was determined by the location of the issues identified.

WAYNE COUNTY

Transportation Issues Identified

Survey participants identified **27** transportation issues in Wayne County. **Road pavement conditions** was the most commonly identified issue in the region.

Comment on Transit

"A trolley transportation system for the downtown area would be a great asset for a town that has a lot of elderly and also tourists. Perhaps the county senior transportation could be enhanced to operate a trolley route offering transportation to both."
