A CLOSER LOOK AT YOUR REGION

The State Transportation Commission's 45-day open public comment period for the 2021 Twelve Year Program (TYP) Update was held March 11 through April 26, 2019. During the comment period, the public had the opportunity to take the Transportation Survey and participate in an online public meeting on either a webinar platform or Facebook Live. All public feedback received was analyzed to better understand public priorities and transportation trends.

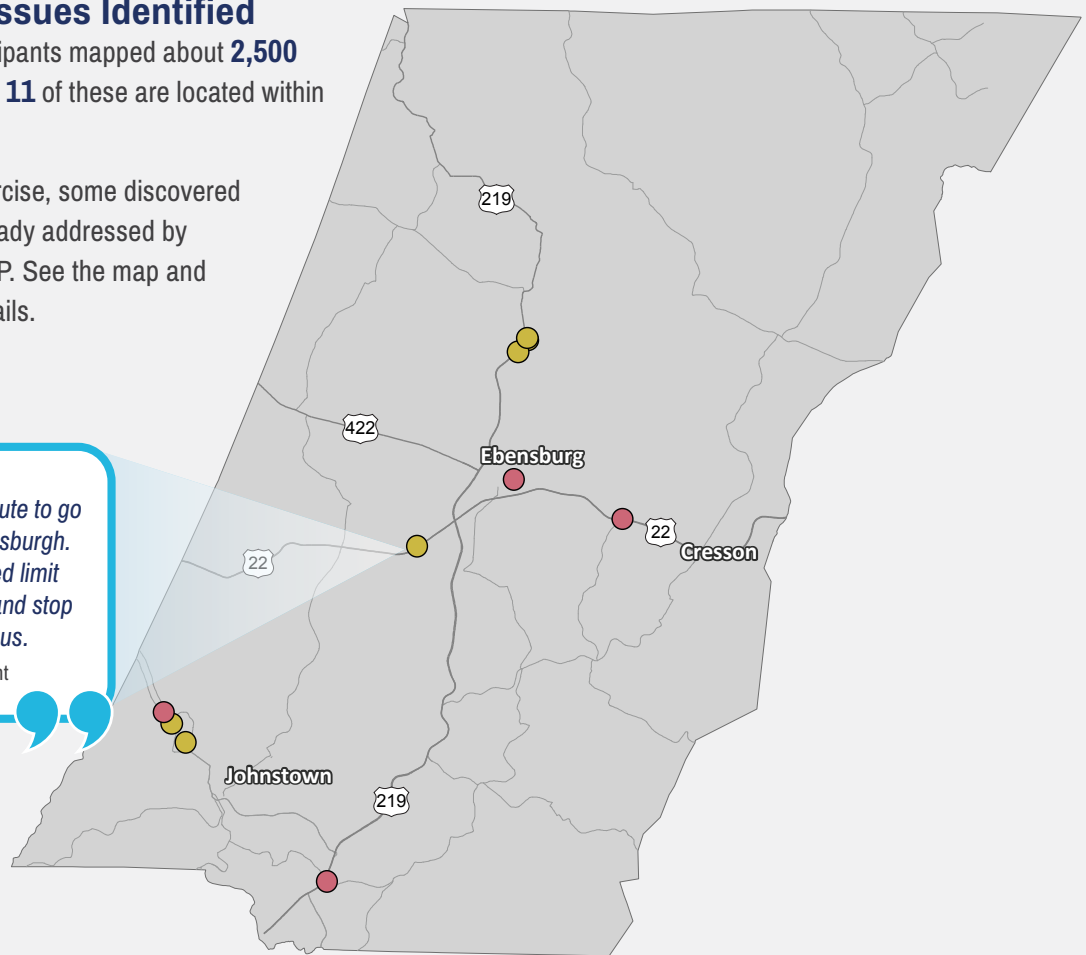

Transportation Issues Identified

Statewide, survey participants mapped about **2,500** transportation concerns. **11** of these are located within the **CCMPO region**.

During the mapping exercise, some discovered their concerns were already addressed by projects on the 2019 TYP. See the map and data below for more details.

There is no full highway route to go from State College to Pittsburgh. Rt 22 has so many speed limit changes, lane changes, and stop lights that it's ridiculous.
